benner incidence leading edge ratio — values and first derivatives

stator, inlet offset=+10 deg
rotor, inlet offset=+10 deg
current implementation

incidence chi
d(incidence chi) / dx
delta phi2 raw
d(delta phi2 raw) / dx
delta phi2 limited
d(delta phi2 limited) / dx
Y formula unrestricted
d(Y formula unrestricted) / dx
Y incidence
d(Y incidence) / dx
Leading-edge diameter / true chord
